

PrinterOn Mobile for Android 3.4.0 Release Notes

Version 3.4.0

Product Changes and Enhancements

PrinterOn Mobile for Android offers an integrated solution for accessing both the PrinterOn Server Platform as well as PrinterOn's global network of Public Print locations in a single unified application. PrinterOn Mobile for Android simplifies the process of discovering and printing to all PrinterOn's services.

PrinterOn Mobile for Android supports Android 4 or newer.

The following are some of the enhancements and improvements that have been made in this version of PrinterOn Mobile for Android.

Product Updates:

- **New – Disclaimer for External Content Access**
A new disclaimer has been added when accessing the Legal section of the application. The new disclaimer notifies users that content will be accessed from the printeron.com website.
- **Updated – AirWatch and Good Dynamics SDK**
Released updated versions of PrinterOn Mobile for Android for Good Dynamics and AirWatch with updated SDKs.
- **Fixed – QR Code Service Setup**
Addressed an issue that caused the Android App to fail to save a configured PrinterOn Service when scanning a QR code when the service is configured as the default in the QR Code definition.
- **Fixed – Long Paper Size Name Not Displayed Correctly**
Addressed an issue when a long paper size name is selected by the administrator that resulted in the Print Options dialog to be incorrectly drawn.

System Requirements

System Requirements

- Android 4.x or newer
- MDM integrated applications require a configured MDM server and provisioned device to work correctly.

Please contact support@printeron.com if you have any questions.
