

PrinterOn Cloud Print Platform Feb 2013 (6003) Upgrade Notice

Product Changes and Enhancements

The PrinterOn Cloud Print Platform provides a wide range of services to customers and partners. Services include PrinterOn's Cloud Print Servers that offer print services for mobile apps, email and through PrinterOn's customizable Web Print Portal. The PrinterOn Web Services also offer PrinterOn's web-based service administration portals and PrinterOn's APIs.

This upgrade has introduced a number of improvements including:

- **New – Large Deployment Management Tools for Enterprise**

Numerous enhancements and improvements have been added to provide simpler and efficient management tools for PrinterOn deployments consisting of hundreds or thousands of printers or print services.

Improvements include:

- Indexed shortcut links for sites consisting of more than 20 printers
- Site-based print search tools for administrators
- Shortcut links between printers and their PDS/PrintConnect/HotSpot printer servers
- Redesigned PDS Server Software Management interface
- Searchable PDS Server Management Tools
- Bulk Printer Creation Tools

For more information about these new tools for your Enterprise service, contact PrinterOn.

- **Improved – PrinterOn Directory Search API**

PrinterOn's Directory Search API has been updated to provide greater consistency of results when searching both PrinterOn Public and Enterprise print services.

- Addressed a reported issue searching for PrinterOn Enterprise, when set to hidden in the PrinterOn Directory, resulting in no search results.
- Addressed an issue searching that ignored the specified number of results when searching for nearby printers.

- **Improved – Performance & Responsiveness**

Significant enhancements have been made to improve the performance of the PrinterOn Cloud Print management tools.

- **Fixed – Equitrac Device Licensing**

Addressed an issue that caused some printers to appear unlicensed when integrating using PrinterOn Enterprise 1.9 R3 and Equitrac 4.2.6.

- Numerous other improvements to PrinterOn's Cloud Print platform
