

PrinterOn PrintWhere 5.2.7 Release Notes

Version 5.2.7

Product Changes and Enhancements

PrinterOn's PrintWhere® Universal Driver is a unique and powerful software solution that enables any Windows-based PC or laptop to print to any PrinterOn-enabled Hosted, Express or Enterprise print device. PrintWhere eliminates tedious printer configuration and empowers users to discover and print to printers anywhere in the world using a simple and easy to use software solution.

The following are some of the enhancements and improvements that have been made in this version of the PrinterOn PrintWhere Universal Driver.

Platform Support:

- **New – PrinterOn Driver Information Panel (PWC-6612)**
A new PrinterOn Driver Information panel has been added to the PrintWhere user interface to allow users and administrators to easily determine which PrinterOn drivers have been automatically downloaded and installed by PrintWhere.
- **New – PrinterOn Generic PCL and Postscript Compatible Drivers for PrinterOn Hosted**
New PrinterOn provided PCL and Postscript compatible print drivers have been added to the PrinterOn Directory, allowing administrators to configure and automatically deploy these highly compatible drivers automatically.
- **Improved – Disabling Delivery Options Screen (PWC-6629)**
Reintroduced the ability to optionally disable Delivery Options screen when printing and no additional input is required by the user, providing a more streamlined experience.
- **Improved – Installing PrintWhere Pre-Requisites Unattended Installation (PWC-6629)**
Addressed an issue that caused PrintWhere's unattended installation to fail if some Windows pre-requisites were not available prior to starting the installation.
- **Improved – Installing PrintWhere Pre-Requisites Unattended Installation (PWC-6615)**
Addressed an issue that caused PrintWhere's unattended installation to fail if some Windows pre-requisites were not available prior to starting the installation.
- **Fixed – Discovering Guest Printers Managed by PrinterOn Enterprise (PWC-6610)**
Addressed an issue that caused Guest printers to be unavailable in PrintWhere when no username or email address was provided in the PrintWhere user interface.

System Requirements

System Requirements
