

PrinterOn Mobile for Android 3.6.5 - Release Notes

Version 3.6.5

PrinterOn Mobile for Android offers an integrated solution for accessing both the PrinterOn Server Platform as well as PrinterOn's global network of Public Print locations in a single unified application. PrinterOn Mobile for Android simplifies the process of discovering and printing to all PrinterOn's services.

PrinterOn Mobile for Android supports Android 5.0 or newer.

Product Changes and Enhancements:

- **Improved – Added support for Arabic** (CSOAND-1890)
This release now supports Arabic text. When the device language is set to Arabic, the PrinterOn Mobile App UI will also be displayed in Arabic.
- **Updated – Updated MDM/MAM SDKs for Android Q** (CSOAND-1886, CSOAND-1888)
To support the release of Android Q, the MDM/MAM-specific versions of the PrinterOn Mobile Apps have been updated to the following SDKs:
 - **PrinterOn Mobile App for Microsoft Intune:** Updated to Intune SDK v6.0.0.
 - **PrinterOn Mobile App for BlackBerry:** Updated to BlackBerry SDK v6.0.1.83.

System Requirements

- Android 5.0 or newer
Note: The PrinterOn Mobile App for BlackBerry Dynamics requires Android 6.0 or newer.
- MDM/MAM-integrated applications require a configured MDM/MAM server and provisioned device to work correctly.

Please contact support@printeron.com if you have any questions.
