

Print Delivery Gateway 4.2.0 - Release Notes

Version 4.2.0

Product Changes and Enhancements

The Print Delivery Gateway Software serves as a protocol gateway for PrinterOn solutions, allowing jobs to be submitted using a number of different methods including from iOS devices, Google Cloud Print and Windows print protocols. It acts as a bridge that supports multiple print workflows allowing IT Administrators to streamline the deployment, management and administration of PrinterOn-enabled printers.

Print Delivery Gateway 4.2.0 is a maintenance update primarily focused on security, compatibility and print performance improvements.

This release supersedes the 4.1.4 release and should be used in all cases.

IMPORTANT NOTE: Standalone PDS and Standalone PDG can NOT be installed on the same PC.

IMPORTANT NOTE: You can only upgrade to PrinterOn Enterprise 4.0 from version 2.5.1 or higher. For upgrades from previous versions, please update your software to the latest version of 2.5.1.

PrinterOn STRONGLY recommends upgrading all servers to version 3.2.7 before upgrading to 4.2.0 for the best upgrade experience.

Product Changes and Enhancements:

- **Improved – PDG Job Status Tracking** (SPOCPS-5699)
Improved native macOS and iOS print compatibility for PDG. Job status information now reflects the overall job state on client devices allowing.

NOTE: These release notes and previous versions may be found on the PrinterOn on website at <http://www.printeron.com/support/product-releases.html>
