Technology Report

#### + Lower Operating Costs

Eliminate expensive VPN connections used to print to remote office locations, temporary offices set up for out of town trials, another corporate office or home office. Reduce infrastructure with only one print server required on your network to run all print services.

#### + Print Management Integration

PrinterOn supports direct integration to many popular print management systems to capture billable activity and provide tracking and accounting for audit purposes.

#### + Scalability and Flexibility

PrinterOn is a highly flexible, scalable and configurable software-based system sitting in between the application and network layers of an organization's IT infrastructure. Functionality remains the same whether deployed on premise behind the firewall or in the cloud.

#### + Increase Security

Meet virtually any security requirement for your organization with control of user authentication, print job data encryption, transmission encryption and a variety of secure release methods at the print device.

#### + Simplify Administration

The entire print infrastructure can be managed through a single location. The PrinterOn web console provides access to all settings, printers, configurations and reports making managing and monitoring simple and efficient.

#### + Superior User Experience

Whether in the office or out of town, on a tablet or laptop, PrinterOn provides a consistent user experience which saves time, increases productivity and is easier to manage.

PrinterOn enables lawyers, staff and guests to print securely from any device, to printers located in the office, meeting rooms or at home.

**"I need a cost effective way to set up a print network at a temporary office location in another city."**

Set up a print network in hours, not days. PrinterOn substantially reduces the time and resources required to provide remote printing capabilities at external locations and connects all of your networks for secure mobile print.

**"I need to print from my tablet when staying at a hotel for an out of town case"**

PrinterOn is available at thousands of public printing locations worldwide. Many hotels provide the service to guests free of charge enabling secure print from any device and maintaining productivity when not in the office.

**"I need to be able to print in my home office but also track those print jobs for billable activity"**

PrinterOn provides CoHo (corporate office, home office) solutions that enable the printing done at home offices to go through the corporate network for tracking and accountability.

## Mobile Device and Printer Agnostic

Support for all printer manufacturers and mobile device types is especially beneficial in a "BYOD" environment.

## Mobile Apps and Print Plugins

PrinterOn mobile apps for iOS and Android are unsurpassed in their ability to allow users to find and securely print to private or public printers. The Android print plugin provides native printing without using a 3rd party app for a more natural workflow.

## Remote Printing

PrinterOn securely connects print requests submitted from a device on one network to physical printers on a completely disconnected network, even from desktop computers and home printers.

## PrintWhere®: Windows Print System

A complete secure print rendering and submission system for Windows-based devices including desktops, laptops, and Surface tablets.

## Pull Printing

Secure Release Anywhere™ gives users the flexibility to choose an output device at the time of print release which reduces print waste when combined with secure release.

## Robust MDM Support

Deep integrations with industry MDM leaders such as AirWatch, Good, and MobileIron mean that you can control PrinterOn mobile app deployment as well as app behavior.
