

PrinterOn Mobile for iOS Release Notes

Version 3.1.1

Product Changes and Enhancements

PrinterOn Mobile for iOS offers an integrated solution for accessing both the PrinterOn Enterprise Platform as well as PrinterOn's global network of Public Print locations and the in a single unified application. PrinterOn Mobile for iOS simplifies the process of discovering and printing to all PrinterOn's services

The following are some of the enhancements and improvements that have been made in this version of PrinterOn Mobile for iOS.

- **New – Good MDM Support**

PrinterOn's iOS application now supports Good Dynamics MDM integration providing additional security and integration with the Good Dynamics platform for customers. The PrinterOn Mobile for IOS with Good Dynamics support can be found in the iTunes App store.

- **New – Enhanced Print Options**

PrinterOn Mobile for iOS now supports extended print options including:

- Duplex control
- Paper Size selection
- Color or Mono selection
- Collate control

These are in addition to PrinterOn's existing page range and copies options, providing complete control over the print experience.

Print Options are integrated with printer capabilities and administrator tools allowing users to select only from supported paper sizes, or manage duplex based on administrator rules.

Please contact support@printeron.com if you have any questions.
