

PrinterOn Mobile for iOS 3.4.0 Release Notes

Version 3.4.0

Product Changes and Enhancements

PrinterOn Mobile for iOS offers an integrated solution for accessing both the PrinterOn Server Platform as well as PrinterOn's global network of Public Print locations in a single unified application. PrinterOn Mobile for iOS simplifies the process of discovering and printing to all PrinterOn's services.

PrinterOn Mobile for iOS supports iOS 7 or newer.

The following are some of the enhancements that have been made in this version of PrinterOn Mobile for iOS.

Product Updates:

- **New – Integrated Email Client for IMAP4 servers**

Users can now directly connect and access emails from a variety of well-known mail providers as well as any IMAP4-based mail servers.

A new integrated mail client allows users to:

- Browse and print email bodies
- Download and print email attachments
- Navigate mail server folders
- Configure multiple mail profiles

The mail setup assistant supports common providers, including iCloud, Google, Outlook.com and Yahoo!. Other providers can be added manually.

- **New – Advanced MDM/MAM Control for Email Client and Document Providers**

New Advanced MDM controls have been added to allow administrators more control over their users' access to external content. Administrators may now use custom configuration options for AirWatch, Good Dynamics or MobileIron to enable or disable use of the iOS Documents Provider extension and the integrated email client.

- **New – Disclaimer for External Content Access**

A new disclaimer has been added when accessing the Legal section of the application. The new disclaimer notifies users that content will be accessed from the printeron.com website.

- **Updated – AirWatch and Good Dynamics SDK**

Released updated versions of PrinterOn Mobile for iOS for Good Dynamics and AirWatch with updated SDKs.

- **Fixed – Possible Crash When Release Print Jobs with Remote Release Without Password**

Addressed a crash that occurred when releasing a print job using the integrated Remote Release interface with a blank password in the User Accounts profile.

System Requirements

System Requirements

- iOS 7 or newer
- MDM integrated applications require a configured MDM server and provisioned device to work correctly.

Please contact support@printeron.com if you have any questions.
